

Audio Tapes for the Medical Profession

The American Cancer Society makes available a series of audio tape cassette albums that highlight various aspects of national conferences on cancer for physicians and allied health professionals. Each album contains two cassettes totaling approximately three hours. Now available are:

HIGHLIGHTS OF THE AMERICAN CANCER SOCIETY NATIONAL CONFERENCE ON BREAST CANCER-1983

Topics of the conference, held in Boston, Massachusetts, May 19-21, 1983, include:

- **Epidemiology and pathology**
 - **Detection and diagnosis**
- **Clinically early breast cancer**
 - **Advanced breast cancer**
- **Special problems in management**

For further information about obtaining these and other tape cassettes, contact your local Unit or Division of the American Cancer Society. Order by number—3798.
