Articles in Ca are indexed in Index Medicus and Current Contents/Clinical Practice. Some are abstracted in Chemical Abstracts, Biological Abstracts, Excerpta Medica, Abstracts of World Medicine, and Medical Socioeconomic Research Sources. Ca is also included in the PREV Database. All articles published, including editorials and letters, represent the opinions of the authors and do not reflect the official policy of the American Cancer Society or the institution with which the author is affiliated, unless there is a clear indication to the contrary.

Cover Biopsies of a subcutaneous melanoma deposit before and after treatment with interleukin-2. Top: prior to treatment, very few if any infiltrating lymphoid cells are noted. Bottom: following treatment, a marked lymphocytic infiltrate is seen surrounding virtually every tumor cell. Photographs are from the article that begins on page 68.
